

The Staff

We have a staff of committed Christians who consistently model God's great love for the children, their friends and their families. Our staff is carefully selected for their educational background, experience, and understanding of the needs of young children. Teachers share basic Christian ideas of love, reconciliation and service during the course of each day through example, conversation, problem solving and circle time.

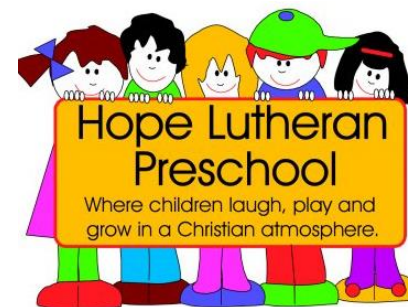

The Parents

Parents play a vital role in this program and we are here to work in partnership with you to make this an enriching experience for both children and families. The Hope Lutheran Preschool Ministry Team which oversees this ministry welcomes your questions and suggestions. Your input into this ministry is extremely valuable to us.

**Hope Lutheran Preschool
is an outreach ministry of
Hope Lutheran Church.**

**Mission –
Called by Jesus to go
and do likewise,
We Love,
We Experience,
We Discover God
and God's will
in the world.**

Children learn the most through play and by taking an active role in the learning process. Play is how children begin to understand their world. Through play, children learn to socialize with other children, solve problems, and think critically. Our classrooms are arranged so that children have access to a variety of materials throughout the day. Teachers provide guidance and encouragement as they work and play with children individually, in small groups, or as a whole group.

Curriculum

Our preschool and Pre K programs focus on building 6 areas of growth:

- Fine/gross motor skills
- Social
- Emotional
- Cognitive
- Creative
- Spiritual Development

Our education is grounded in Christian principles. We introduce God's Word through stories, chapel time and explore the wonderful world God created while emphasizing God's great love for us.

We also enhance our program with Learning Without Tears - Get Set for School. A play-based curriculum that offers a pre-writing program and early math and literacy skills instruction, supporting preparation for kindergarten.
